

K-4 Chromebook Distribution Information

Who:

We are asking every household to pick a school-issued Chromebook. We will be issuing one Chromebook for every two K-4 students in a household. This will help with ensuring that all students have access to the same programs, etc. on their device.

When and Where:

All devices will be distributed to you in your vehicle by our awesome staff. The process will be identical to our distribution of student personal items last week at all elementary buildings.

Wednesday, March 25, 2020 8am - 4pm

Riverside Elementary Families -
Location: Front Entrance.

Baxter Elementary Families -
Location: Old Front Entrance.

Friday, March 27, 2020 8am - 4pm

****Please note that the following dates and times are dependent on many factors as things are rapidly changing during this unprecedented time. We will communicate changes as we are aware of them and will do our best to get your devices distributed as quickly as possible.****

Garfield Elementary Families -
Location: Front entrance.

Harrison Elementary Families -
Location: Main Entrance (Oak Street).

Lowell Elementary Families -
Location: Main Entrance (3rd Avenue).

Nisswa Elementary Families -
Location: Main Entrance (By the library).

Come Prepared:

[Please read the attached policy and usage handbook prior to pick-up](#)

A parent/guardian acknowledgment signature will be required upon pick up for every household. We will have copies of the signature page, but please feel free to print the last page, if possible, and come with it signed. It will help speed up your process.

Important Information:

At this time, our buildings are closed until March 27th while teachers prepare for possible distance learning starting Monday, March 30th per Governor Walz.

The district has a goal of every household having enough internet access for students to complete their distance learning activities, if needed, by March 30th. We are in the process of working through our current requests. However, if you are concerned about your internet access and have not already completed the needs survey you can reach that survey here. Our technology team will then follow-up with you.
